DIRECTORS' REVIEW REPORT TO THE SHAREHOLDERS

The Directors of your Company are pleased to present their review of the affairs of the Company for the nine months ended March 31, 2020.

ECONOMIC OVERVIEW

The outbreak of COVID-19 has engulfed the entire world with huge loss of life along with economic turmoil. The world is witnessing unprecedented lockdowns, reduced economic activities and accordingly, the International Monetary Fund (IMF) forecasts global economy to shrink by 3% this year. Although, Pakistan government's decisive policy measures to move our country's economy towards stabilization and adjustment path had started to show positive outcomes in narrowing of the current account deficit and reversing macroeconomic imbalances during first 9 months of the financial year, the COVID-19 pandemic has posed extraordinary challenges to the nation including uncertain short term growth prospects and its related socio-economic repercussions.

Figures released by the State Bank and other Government Agencies depict a glaring improvement in Current Account Deficit (CAD) by 73.1% to US\$ 2.8 billion in Jul-Mar FY 2019-20 (US\$ 10.3 billion Jul-Mar FY 2018-19) which is mainly driven by a decline in imports by 16.2% to US\$ 32.9 billion in Jul-Mar 2019-20 (US\$ 39.3 billion Jul-Mar FY 2018-19) followed by 1.1% increase in exports to US\$ 18.3 billion in Jul-Mar 2019-20 (US\$ 18 billion Jul-Feb 2018-19) and 6% increase in Workers' Remittances to US\$ 16.9 billion in Jul-Mar 2019-20 (US\$ 16 in Jul-Mar 2018-19).

However, industrial sector's struggle to maintain sustainability, owing to increased energy and finance costs, coupled with a slow growth in agricultural sector, due to the worst infestation in over 2 decades, were posing economic challenges on domestic front. With these challenges on hand, the outbreak of the pandemic COVID-19 poses an even stiff challenge to the economy.

INDUSTRIAL OVERVIEW

Country's total exports fell by \$61 million to \$1.973 billion in January 2020, increased by 13.61% to \$2.13 billion as compared to \$1.88 billion during February and witnessed a 15.56% decline in March 2020 from \$2.13 to \$1.8 billion. Textile exports registered a growth of 4.24% to US\$ 10.4 billion in the first nine months of FY 2019-20 (US\$ 9.9 billion Jul-Mar FY 2018-19). Prominent categories were readymade garments with a registered growth of 10.9% followed by, 6.7% in knit and 2.5% in bed wear. In addition, the disappointing cotton production and resultant increase in prices, consistent inflationary pressures and higher interest rates are rendering it difficult for the industry to keep up the momentum.

As other countries worldwide, including Pakistan, impose lockdowns to prevent the spread of the pandemic, Pakistan's textile sector is facing pressure on sales in form of delays and cancellation of orders, leaving the capacities unutilized. This coupled with a sudden lock down imposed in Pakistan and particularly in Sindh had and will lead to operations loss, exchange losses due to erratic changes and inventory losses due to unnecessary inventory buildup. Similarly, the Retail sector continues to struggle amid the lockdown as well whereby retail stores across the country are still closed which is leading to liquidity challenges for the sector along with a massive hit on revenues and margins.

FINANCIAL PERFORMANCE

Key performance numbers are presented below:

	Units	Nine Month ended March 31	Nine Month ended March 31, 2019
Export sales	Rs. in millions	28,514	21,908
Local sales	Rs. in millions	16,378	18,243
Total sales	Rs. in millions	44,892	40,151
Gross profit	Rs. in millions	8,124	9,065
Profit before tax	Rs. in millions	1,096	2,980
Profit after tax	Rs. in millions	700	2,697
Earnings per share (EPS)	Rupees	1.64	6.31
Debt to equity ratio	Times	0.77	0.60
Current ratio	Times	1.03	1.15
Break-up-value per share	Rupees	35.39	40.47

The quarter under review was depressing mainly due to lower PKR realization caused by PKR getting stronger against US\$ compared with the rates prevailing on June 30, 2019 and getting too volatile during March 2020. Despite decrease in realizable sales value, we faced the challenges of higher cotton prices due to short local cotton crop, higher cost of dyes and chemical, ancillary materials, non-availability of Export Refinance resulting in availing higher rates borrowings etc. Due to our customer based mainly in Europe and then in USA, we started to have negative impacts in the form of customers seeking more price reductions/discounts, reduction in already ordered quantity and even rescheduling in orders. This caused, lower sales in Feb and March as well as further reduced margin and some increase in inventory levels. With the enforcement of the lockdown in the third week of March our entire operations and sales came to a complete halt. As a result, though we made gross profit in the quarter under review but could not cover our distribution, selling and finance cost. Moreover, due to our retail chain spread all over the country in rented premises, we also got hit by the first-time application of IRS 16. Last but not the least, we also got exposed to minimum income tax liability, which substantially enhanced our post tax loss.

FUTURE OUTLOOK

The catchphrase of the COVID-19 crisis, which has engulfed nearly the entire world and carries severe consequences for countries' populations and economies, is "uncertainty". The IMF recently published the World Uncertainty Index, which reveals that the coronavirus is associated with the highest level of uncertainty in the economic context since the index started recording data. On 14 April, the IMF updated its global growth projections from only three months ago, indicating that the global economy is expected to experience its worst recession since the Great Depression, surpassing the deep economic slump following the global financial crisis a decade ago. With the IMF predicting global economy to contract by 3% in year 2020, the COVID-19 pandemic is expected to affect various industries besides unemployment. The company is taking measures to innovate and quickly identify new sources of revenue from sectors that are actually facing supply issues due to the pandemic. The company strongly believes that in moments of crisis there will be opportunities. We are identifying these areas and quickly catering to their needs with rapid product development.

COVID-19 is severely impacting manufacturing production in developing countries because: 1) demand from high-income countries for manufacturing goods and raw materials is decreasing; 2) value chains are being

disrupted due to delays in the delivery of necessary components and supplies from more technological advanced countries; 3) other factors, including policies (e.g. restriction of movement of goods and people inability of employees to reach the workplace or financial constraints, which affect the normal production process. All these negative channels will inevitably have an impact on exports from developing countries. The losses in export volume will be further intensified by the decline in energy and commodity prices.

IMF Staff Report reveals that Pakistan's primary deficit is now expected to deteriorate to 2.9 percent of GDP fiscal year 2020 (from 0.8 percent expected earlier) due to a 1.8 percentage point decline in tax revenue relative to the pre-virus baseline and the needed higher spending to support the health response, social safety nets for the very poor, and employment.

The Government of Pakistan has been successful in procuring fresh loans from IMF and World Bank besides rescheduling. To cope with the crisis and to help both individuals, business & industry has announced various measures and announced certain relaxations including but not limited to PKR 1.25 trillion package to support all sectors of the society, started refunds of and reduced policy rates by 425 basis points within the month.

According to World Bank, Pakistan may unfortunately fall into a recession – for the first time in 68 years – due to the severe impact of the deadly pandemic, economy expected to be shrinking up to 2.2% and a painful decline in per capita income. It further says that remittances to Pakistan in 2020 are projected to decline by 20 per cent, totaling about \$17 billion, compared with \$22.5bn remitted in 2019.

Your Company, with all the constraints and limitations, has prepared itself by employing guidelines for preventive action against spread of COVID-19 on its premises, and has started limited operations, after recently allowed by the government. Under these uncertain circumstances, where hardly anything may be avoided/influenced/minimized by the management the only agenda and strategy of us is to ensure “business continuity”.

CONSOLIDATED FINANCIAL STATEMENTS

Consolidated financial statements for the nine months ended March 31, 2020 of the Company and its subsidiaries Gul Ahmed International Limited (FZC) – UAE, GTM (Europe) Limited – UK, GTM USA Corp. – US, Sky Home Corporation USA, and Vantona Home Limited, UK are attached.

ACKNOWLEDGEMENT

We acknowledge and appreciate the efforts and valuable support of all stakeholders.

 Plot# HT/8, KDA Scheme 3, Landhi Industrial area, Karachi.
 Plot# 12, Sector 23, Korangi Industrial area, Karachi.

- 1.4 As at March 31, 2020, the Company has 65 retail outlets, 30 fabric stores, 2 fair price shops, 5 whole sale shops and 6 franchises (2019:64 retail outlets, 32 fabric stores, 2 fair price shops, 5 whole sale shops and 6 franchises).

2 BASIS OF PREPARATION

These condensed interim unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, "Interim Financial Reporting", issued by International Accounting Standard Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These condensed interim un-consolidated financial statements comprise of the condensed interim un-consolidated statement of financial position as at March 31, 2020 and the condensed interim un-consolidated statement of profit or loss, condensed interim un-consolidated statement of comprehensive income, condensed interim un-consolidated statement of cash flows and condensed interim un-consolidated statement of changes in equity for the quarter ended March 31, 2020.

The comparative statement of financial position, presented in these condensed interim un-consolidated financial statements, as at June 30, 2019 has been extracted from the audited un-consolidated financial statements of the Company for the year ended June 30, 2019, whereas the comparative condensed interim un-consolidated statement of profit or loss, condensed interim un-consolidated statement of comprehensive income, condensed interim un-consolidated statement of cash flows and condensed interim un-consolidated statement of changes in equity for the quarter ended March 31, 2020 have been extracted from the condensed interim un-consolidated financial statements of the Company for the quarter ended March 31, 2019.

These condensed interim unconsolidated financial statements do not include all the information required in annual financial statements prepared in accordance with approved accounting standards as applicable in Pakistan, and should be read in conjunction with the un-consolidated financial statements for the year ended June 30, 2019.

2.1 Change in accounting standards, interpretations and amendments to published approved accounting and reporting standards

(a) New standards, amendments and interpretation to published approved accounting and reporting standards which are effective during the nine month ended March 31, 2020

There are certain amendments and an interpretation to approved accounting and reporting standards which are mandatory for the Company's annual

3 ACCOUNTING POLICIES

Same accounting policies and methods of computation are adopted for the preparation of these condensed interim un-consolidated financial statements as those applied in the preparation of un-consolidated financial statements for the year ended June 30, 2019, except for change in accounting policy as described in note 3.1.

3.1 Change in accounting policy due to first time adoption of IFRS 16

Upon adoption of IFRS 16, the lessees are required to recognise a lease liability for the obligation to make lease payments and a right of-use (RoU) asset for the right to use the underlying asset for the lease term against a consideration. Under IAS 17, leased assets, under operating lease mode, were not recognised on statement of financial position and it only required lessees to recognise a periodic lease expense (rent) on a straight-line basis over the term for leases tenure and relevant lease commitments were disclosed.

With effect from July 01, 2019, the Company has applied IFRS 16 for recognition of the property leases using the modified retrospective approach. Under this method, the standard has been applied retrospectively, with the cumulative effect of initially applying the standard, recognised at the date of initial application. Accordingly, adjustment to the carrying amount of assets and liabilities were recognised in the current period. The Company has also used various practical expedients permitted by the standard. The significant judgments in the implementation were determining if a contract contained a lease, and the determination of whether the Company is reasonably certain that it will exercise extension options present in lease contracts. The significant estimates were the determination of incremental borrowing rates.

New accounting policies of the Company upon adoption of IFRS 16 are:

Right-of-Use (RoU) assets

On initial application the RoU assets are initially measured at the present value of the consideration (lease payments) to be made over the lease term. Subsequently, RoU assets are measured at cost, less accumulated depreciation and any impairment loss. RoU assets are depreciated on a straight-line basis over the lease term.

Lease liability

On initial application the Company recognises lease liabilities measured at the present value of the consideration (lease payments) to be made over the lease term adjusted for prepayments. The lease payments are discounted using the incremental rate of borrowing. Subsequently, the carrying amount of lease liability is increased to reflect the accretion of interest and reduced for the lease payments made.

4 ACCOUNTING ESTIMATES, JUDGEMENTS AND FINANCIAL RISK MANAGEMENT

The preparation of these condensed interim un-consolidated financial statements requires management to make estimates, assumptions and use judgments that affect the application of policies and reported amounts of assets and liabilities and income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision. Judgments and estimates made by the management in the preparation of these condensed interim financial statements are the same as those that were applied to financial statements as at and for the year ended June 30, 2019.

The Company's financial risk objectives and policies are consistent with those disclosed in the annual audited financial statements as at and for the year ended June 30, 2019.

5 LONG TERM FINANCING - SECURED

	Un-Audited March 2020	Audited June 2019
	-----Rupees in '000-----	
Opening balance	10,037,203	8,277,726

15 SEGMENT INFORMATION

The Company's Operations have been divided in four segments based on the nature of process and internal reporting. Following are the four reportable business segments:

- a) **Spinning :** Production of different qualities of yarn using both natural and artificial fibers.
- b) **Weaving:** Weaving is a method of fabric production in which two distinct sets of yarns or threads are interlaced at right angles to form a fabric.
- c) **Retail and Distribution:** On the retail front, Ideas by Gul Ahmed offers fabrics and made-ups, ranging from home accessories to clothing.
- d) **Processing, Home Textile and Apparel** Processing of greige fabrics into various types of finished fabrics for sale as well as to manufacture and sale of madeups and home textile products.

Transactions among the business segments are recorded at cost.

There are no transactions with directors of the Company and key management personnel other than under the terms of employment for the period ending March 31, 2020 amounting to Rs. 1,044 million (March 31, 2019: Rs.733 million) on account of remuneration.

17 FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The Company while assessing fair values uses valuation techniques that are appropriate in the circumstances using relevant observable data as far as possible and minimizing the use of unobservable inputs. Fair values are categorized into following three levels based on the input used in the valuation techniques;

- Level 1 Quoted prices in active markets for identical assets or liabilities that can be assessed at measurement.
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 Inputs are unobservable inputs for the asset or liability inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Financial assets and liabilities of the Company are either short term in nature or are repriced periodically therefore; their carrying amounts approximate their fair values.

Transfers, if any, between levels of the fair value hierarchy is recognized at the end of the reporting period during which the transfer has occurred. The Company's policy for determining when transfers between levels in the hierarchy have occurred includes monitoring of changes in market and trading activity and changes in inputs used in valuation techniques.

As at year end the fair value of all the financial assets and liabilities approximates to their carrying values. The property plant and equipment is carried at cost less accumulated depreciation and impairment if any, except free-hold land, lease-hold land and capital work in progress which are stated at cost. Long term investments in subsidiaries represent the investment in unquoted shares of companies carried at cost. The Company does not expect that unobservable inputs may have significant effect on fair values.

18 SUBSEQUENT EVENTS AFTER BALANCE SHEET DATE

Company has approached all Banks and DFIs for one year deferment of long term loans installments, in line with the relief measures announced by the State Bank of Pakistan. The aggregate of amount due within one year is around Rs. 1.25 billion, and if approved, would result in the extension of the total loan repayment period by one year.

19 CORRESPONDING FIGURES

For better presentation and due to revisions in the Companies Act 2017, certain re-classification have been made in the corresponding figures including following;

Reclassification from component	Reclassification to component	Amount Rs '000
Sales	Other income	
Sales - net (Exchange gain on realization of export receivables)	Other income	372,264
Cost of sales	Other income	
Cost of sales (Exchange gain on purchase)	Other income	38,747

20 DATE OF AUTHORISATION

These financial statements were authorised for issue on 29 April, 2020 by the Board of Directors of the Company.

21 GENERAL

- 21.1 Allocations for the workers' profit participation fund, workers' welfare fund and taxation are provisional and final liability including liability for deferred taxation will be determined on the basis of annual results.

1.5 As at March 31, 2020, The Group has 66 retail outlets, 30 fabric stores, 2 fair price shops, 5 whole sale shops and 6 franchises (2019:64 retail outlets, 32 fabric stores, 2 fair price shops, 5 whole sale shops and 6 franchises).

2 BASIS OF PREPARATION

The condensed interim consolidated financial information comprise the consolidated statement of Financial Position of Gul Ahmed Textile Mills Limited, its wholly owned subsidiary company Gul Ahmed International Limited (FZC), GTM (Europe) Limited which is the wholly owned subsidiary of Gul Ahmed International Limited (FZC), GTM USA Corporation which is the wholly owned subsidiary of GTM (Europe) Limited, Sky Home Corporation which is the wholly owned subsidiary of GTM (Europe) Limited, Vantona Home Limited which is the wholly owned subsidiary of GTM (Europe) Limited and JCCO 406 Limited which is the wholly owned subsidiary of GTM (Europe) Limited as at March 31, 2020 and the related consolidated statement of profit or loss, consolidated statement of cash flows and consolidated statement of changes in equity together with the notes forming part thereof for the period then ended. The financial statements of the subsidiary companies have been consolidated on a line by line basis.

These condensed interim consolidated financial statements of the Group have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by International Accounting Standard Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These condensed interim consolidated financial statements comprise of the condensed interim consolidated statement of Financial Position as at March 31, 2020 and the condensed interim consolidated statement of profit or loss, condensed interim consolidated statement of comprehensive income, condensed interim consolidated statement of cash flows and condensed interim consolidated statement of changes in equity for the nine months ended March 31, 2020.

The comparative statement of Financial Position, presented in these condensed interim consolidated financial statements, as at June 30, 2019 has been extracted from the audited financial statements of the Group for the year ended June 30, 2019 whereas the comparative condensed interim consolidated statement of profit or loss, condensed interim consolidated statement of comprehensive income, condensed interim consolidated statement of cash flows and condensed interim consolidated statement of changes in equity for nine months ended March 31, 2020 have been extracted from the condensed interim consolidated financial statements of the Group for nine months ended March 31, 2019.

These condensed interim consolidated financial statements do not include all the information required in annual financial statements prepared in accordance with approved accounting standards as applicable in Pakistan, and should be read in conjunction with the consolidated financial statements for the year ended June 30, 2019.

2.1 Change in accounting standards, interpretations and amendments to published approved accounting and reporting standards

(a) New standards, amendments and interpretation to published approved accounting and reporting standards which are effective during the nine months ended March 31, 2020

There are certain amendments and an interpretation to approved accounting and reporting standards which are mandatory for the Group's annual accounting period beginning on July 1, 2019; however, these do not have any significant impact on these consolidated condensed interim financial statements hence not detailed. Further following new standards have become effective during the period due to which certain changes in accounting policies have been made as detailed in note 3.1.

3 ACCOUNTING POLICIES

Same accounting policies and methods of computation are adopted for the preparation of these condensed interim consolidated financial statements as those applied in the preparation of consolidated financial statements for the year ended June 30, 2019, except for change in accounting policy as described in note 3.1.

3.1 Change in accounting policy due to first time adoption of IFRS 16

Upon adoption of IFRS 16, the lessees are required to recognise a lease liability for the obligation to make lease payments and a right-of-use (RoU) asset for the right to use the underlying asset for the lease term against a consideration. Under IAS 17, leased assets, under operating lease mode, were not recognised on statement of financial position and it only required lessees to recognise a periodic lease expense (rent) on a straight-line basis over the term for leases tenure and relevant lease commitments were disclosed.

With effect from July 01, 2019, the Group has applied IFRS 16 for recognition of the property leases using the modified retrospective approach. Under this method, the standard has been applied retrospectively, with the cumulative effect of initially applying the standard, recognised at the date of initial application. Accordingly, adjustment to the carrying amount of assets and liabilities were recognised in the current period. The Group has also used various practical expedients permitted by the standard. The significant judgments in the implementation were determining if a contract contained a lease, and the determination of whether the Group is reasonably certain that it will exercise extension options present in lease contracts. The significant estimates were the determination of incremental borrowing rates.

New accounting policies of the Group upon adoption of IFRS 16 are:

Right-of-Use (RoU) assets

On initial application the RoU assets are initially measured at the present value of the consideration (lease payments) to be made over the lease term. Subsequently, RoU assets are measured at cost, less accumulated depreciation and any impairment loss. RoU assets are depreciated on a straight-line basis over the lease term.

Lease liability

On initial application the Group recognises lease liabilities measured at the present value of the consideration (lease payments) to be made over the lease term adjusted for prepayments. The lease payments are discounted using the incremental rate of borrowing. Subsequently, the carrying amount of lease liability is increased to reflect the accretion of interest and reduced for the lease payments made.

4 ACCOUNTING ESTIMATES, JUDGEMENTS AND FINANCIAL RISK MANAGEMENT

The preparation of this condensed interim consolidated financial statements requires management to make estimates, assumptions and use judgments that affect the application of policies and reported amounts of assets and liabilities and income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision. Judgments and estimates made by the management in the preparation of this condensed interim financial statements are the same as those that were applied to financial statements as at and for the year ended June 30, 2019.

The Group's financial risk objectives and policies are consistent with those disclosed in the annual audited financial statements as at and for the year ended June 30, 2019.

7 CONTINGENCIES AND COMMITMENTS

Contingencies

The status of contingencies, as reported in the annual financial statements for the year ended June 30, 2019 remained unchanged during the current period except following:

- a) In the matter of Gas Infrastructure Development Cess (GIDC), wherein there is no change in its status as disclosed in note 13.6 of the financial statements for the year ended June 30, 2019 except the increase in amount of provision of Rs. 2,731 million (June-2019: Rs.2,327 million) commencing from May 22, 2015.
- b) Income tax amended order under section 122(1) of the Income Tax Ordinance, 2001, for the tax year 2016 has been issued, wherein certain provisions and expenses aggregating to Rs. 338.2 million (having tax impact of Rs. 108.2 million) have been added back to the income as claimed in the deemed assessment, while super tax of Rs. 42.8 million has been levied. The Holding Company contested the matter in appeal against amended order, and Commissioner Income Tax (Appeal) passed an order in favor of the Holding Company allowing the expenses aggregating to Rs.290 million wherein, the Department has filed appeal to Appellate Tribunal against the order, however, the management believes that the aforementioned matter will ultimately be decided in favour of the Holding Company. Accordingly, no provision is required to be made in these consolidated financial statements.
- c) The Federal Government vide Finance Act, 2019 dated June 30, 2019 made amendments in section 65(B) whereby it restricted the percentage of tax credit from 10% to 5% on amount invested in extension, expansion, balancing, modernization and replacement (BMR) of the plant and machinery for the tax year 2019 and the period for investment in plant and machinery for availing tax credit is curtailed to 30-6-2019 from 30-6-2021. The Holding Company along with other petitioners has challenged the amendment in the Sindh High Court through constitutional petition, the Honorable Sindh High Court has passed an interim order on December 23, 2019 allowing the petitioners to file the income tax return as per un-amended provisions of section 65(B) of income tax ordinance, 2001, hence the Holding Company has claimed tax credit on BMR @10% in the income tax return for the year ended 30 June, 2019.
- d) The Holding Company along with several other petitioners has filed a Constitution Petition against the Karachi Water & Sewerage Board (KWSB) and others in the Honourable Sindh High Court against a notification dated 30.10.2019 issued by the KWSB whereby increased water charges from Rs. 242 to Rs. 313 per 1000 gallons which is 29% more than the existing rates with retrospective effect from 1.07.2019. The Honourable Sindh High Court has issued stay order against the impugned notification on 16.01.2020 already restrained KWSB from taking any coercive action against the Holding Company. The Holding Company has provided banker's verified various Cheques of aggregate amount of Rs. 27.659 million (June 2019 Rs. Nil) being difference between Rs. 313 and Rs. 242 per 1000 gallons as security to Nazir of High Court Sindh and also, as a matter of prudence, maintained full provision in these consolidated financial Information.

Guarantees

- (a) Guarantees of Rs. 1,120 million (June-2019: Rs. 1,035 million) has been issued by banks on behalf of the holding company which are secured by pari passu hypothecation charge over stores and spares, stock-in-trade, trade debts and other receivables. These guarantees includes guarantees issued by related party amounting to Rs. 938 million (June 2019: Rs. 893 million).
- (b) Post dated cheques of Rs. 3,208 million (June-2019: Rs. 3,125 million) are issued to Custom Authorities in respect of duties on imported items availed on the basis of consumption and export plans.
- (c) Bills discounted amounted to Rs.4,337 million (June-2019: Rs. 4,960 million)
- (d) Corporate guarantee of Rs 143.550 million (June 2019: Rs. 146 million) Rs.662.986 million (June-2019: 661 million) and Rs. 150 million (June-2019: 148 million) have been issued to various banks in favor of subsidiary companies - GTM (Europe) Limited - UK, Gul Ahmed International FZC- UAE and Sky Home Corporation- USA respectively.

Commitments

- (a) The Group is committed for capital expenditure as at March 31, 2020 of Rs.4,754 million (2019: Rs.2,838 million)

15 SEGMENT INFORMATION

The Group's Operations have been divided in four segments based on the nature of process and internal reporting. Following are the three reportable business segments:

- a) **Spinning :** Production of different qualities of yarn using both natural and artificial fibers.
- b) **Weaving:** Weaving is a method of fabric production in which two distinct sets of yarns or threads are interlaced at right angles to form a fabric.
- c) **Retail and Distribution:** On the retail front, Ideas by Gul Ahmed offers fabrics and made-ups, ranging from home accessories to clothing.
- d) **Processing, Home Textile and Apparel;** Production of greige fabric, its processing into various types of fabrics for sale as well as manufacture and sale of made-ups and home textile products.
- e) **Subsidiary Companies.:** These subsidiaries are also in the textile business reselling products to the ultimate customers, imported from Parent Group.

Transactions among the business segments are recorded at cost.

There are no transactions with directors of the Holding Company and key management personnel other than under the terms of employment for the period ending March 31, 2020 amounting to Rs.1,254 million (March 31, 2019: Rs.858 million) on account of remuneration.

17 FAIR VALUES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The Holding Company while assessing fair values uses valuation techniques that are appropriate in the circumstances using relevant observable data as far as possible and minimizing the use of unobservable inputs. Fair values are categorized into following three levels based on the input used in the valuation techniques;

- Level 1 Quoted prices in active markets for identical assets or liabilities that can be assessed at measurement.
- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3 Inputs are unobservable inputs for the asset or liability inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

Financial assets and liabilities of the Holding Company are either short term in nature or are repriced periodically therefore; their carrying amounts approximate their fair values.

Transfers, if any, between levels of the fair value hierarchy is recognized at the end of the reporting period during which the transfer has occurred. The Holding Company's policy for determining when transfers between levels in the hierarchy have occurred includes monitoring of changes in market and trading activity and changes in inputs used in valuation techniques.

As at year end the fair value of all the financial assets and liabilities approximates to their carrying values. The property plant and equipment is carried at cost less accumulated depreciation and impairment if any, except free-hold land, lease-hold land and capital work in progress which are stated at cost. Long term investments in subsidiaries represent the investment in unquoted shares of companies carried at cost. The Holding Company does not expect that unobservable inputs may have significant effect on fair values.

18 SUBSEQUENT EVENTS AFTER BALANCE SHEET DATE

The Holding Company has approached all Banks and DFIs for one year deferment of long term loans installments, in line with the relief measures announced by the State Bank of Pakistan. The aggregate of amount due within one year is around Rs. 1.25 billion, and if approved, would result in the extension of the total loan repayment period by one year.

19 CORRESPONDING FIGURES

For better presentation and due to revisions in the Companies Act 2017, certain re-classification have been made in the corresponding figures including following;

Reclassification from component	Reclassification to component	Amount Rs '000
Sales	Other income	
Sales - net (Exchange gain on realization of export receivables)	Other income	372,264
Cost of sales	Other income	
Cost of sales (Exchange gain on purchase)	Other income	38,747
